Basic Building Blocks for Equity Data with PBSES screens.pdf	306 KB	2016-12-08 17:20

SEARCH TIPS:

We try to include **important key words** in our file names. When you search, think about **the main idea the resource addresses** (reward, data, culturally responsive, restraint, etc.).

Try to use **complete words** in your search instead of acronyms. If you use an acronym, the system will return resources with that character string in their title. For example, a search of "SEL" would produce "SEL and Behavior Resource Catalog" as well as "Baseline Data Entry Form."

Avoid using numbers in your search (such as "Tier 1," "Tier 2," and "Tier 3") because the system has a hard time distinguishing single numbers from number strings (e.g., "2019").

Let us help! You can contact your TA provider through the website. If you're unsure who that may be you can direct your question to Therese Sandomierski (on the "FLPBIS Staff" page).

Looking for an older resource? Some resources have been taken down because of their age or technical accuracy. Check with your TA Provider to see if a copy is still available.
